Speedball® CERAMICS

Speedball has spent nearly two decades dedicated to providing ceramic artists of all ages and skill levels with an impressive range of high-quality products at an accessible price. We continue to enhance our offerings to be able to better serve this segment of our artistic community, with all our new product innovation shaped by our artist-led philosophies. This approach is apparent in the suite of ceramic products we manufacture and whether it's our pottery wheels, our tools & accessories or our leading underglazes & glazes, Speedball Ceramics is the ultimate combination of performance and value.

Pottery is the process of forming vessels or sculptural objects from clay or other ceramic materials which are fired at high temperatures to give them a hard, durable form. Major types include earthenware, stoneware and porcelain.

Glaze is a coating that is applied to ceramic ware to make it more durable, waterproof, and visually appealing. Glaze is made up of a mixture of minerals and chemicals that are combined with water to create a liquid that can be applied to the ceramic surface through brushing or spraying.

After glaze is applied to pottery, it is then fired in a kiln at high temperatures. The heat causes a chemical reaction in the glaze, causing it to melt and fuse to the surface of the pottery. As the glaze cools, it hardens and forms a protective layer over the ceramic piece.

Speedball makes 3 different types of glazes:

NEW!

MID-FIRE™ GLAZE

- Beginner to Expert
- Firing Range : Cone 5/6
- Mottling and Reduction-like effects with one glaze
- Recommended application on Cone 04 bisque
- All colors lead-free + dinnerware safe*

UNDERGLAZE

- Beginner to Expert
- Firing Range : Cone 05-10
- Use Speedball Clear Earthenware or Stoneware Clear Glaze
- Recommended for greenware or bisque
- All colors lead-free + dinnerware safe*

EARTHENWARE

- Beginner to Expert
- Firing Range : Cone 05/06
- Recommended application on Cone 04 bisque
- All colors lead-free + dinnerware safe*

Underglazes vs Glazes? The difference is that underglaze fires matte and is not sealed unless a clear glaze is applied, and acts similar to a paint. Glazes will melt and seal the piece without the use of a clear glaze.

*when used and fired as recommended

CERAMIC GLAZES

MID-FIRE™ GLAZES

Created in collaboration with ceramic artist Nancy Sowder, Mid-Fire Glaze is available in an array of nature-inspired colors that yield gorgeous mottling effects and a reduction-like look when fired at Cone 5-6 in an oxidation kiln.

No matter your skill level, you'll find it easy to achieve dazzling results with a single glaze—or layer multiple colors for nuanced depth and variegated textures. These glazes provide a durable finish for dinnerware and other pieces intended for everyday use.

Available in (30) colors in 16oz (473ml) jars. Lead-free and dinnerware-safe when used and fired as recommended.

MEET THE ARTIST Nancy Sowder

Richmond-based ceramic artist, Nancy Sowder, is the brilliant formulator behind the colors included in the Speedball Mid-Fire line. Despite her focus on sculpture in both undergraduate and graduate school, Nancy has found creating functional pieces allows her to express her life-long passion for design and color, both incredibly evident in the spectacular offering she developed with Speedball Mid-Fire glazes.

BOSS™ SERIES WHEELS

CLAY BOSS POTTERY WHEEL

With a .5 HP industrial motor and 100lb (45 kg) centering capacity, Clay Boss has quickly become one of the most popular wheels on the market today. It features a polyethylene tabletop and two-part splash pan for easy cleanup. A 14in (35.6cm) wheel head and foot pedal with smooth, variable speed control (0-240 rpm). Its reversing plug allows for quick and easy changes of wheel direction, while its sophisticated load-sensing control ensures that the wheel head speed is maintained under changing loads. Each Clay Boss includes (1) each FREE 7.5in Brown (19cm) and 12in Brown (30.4cm) Brown Plastic Bat and carries a 10-year warranty.

BOSS SERIES MODELS

BIG BOSS POTTERY WHEEL

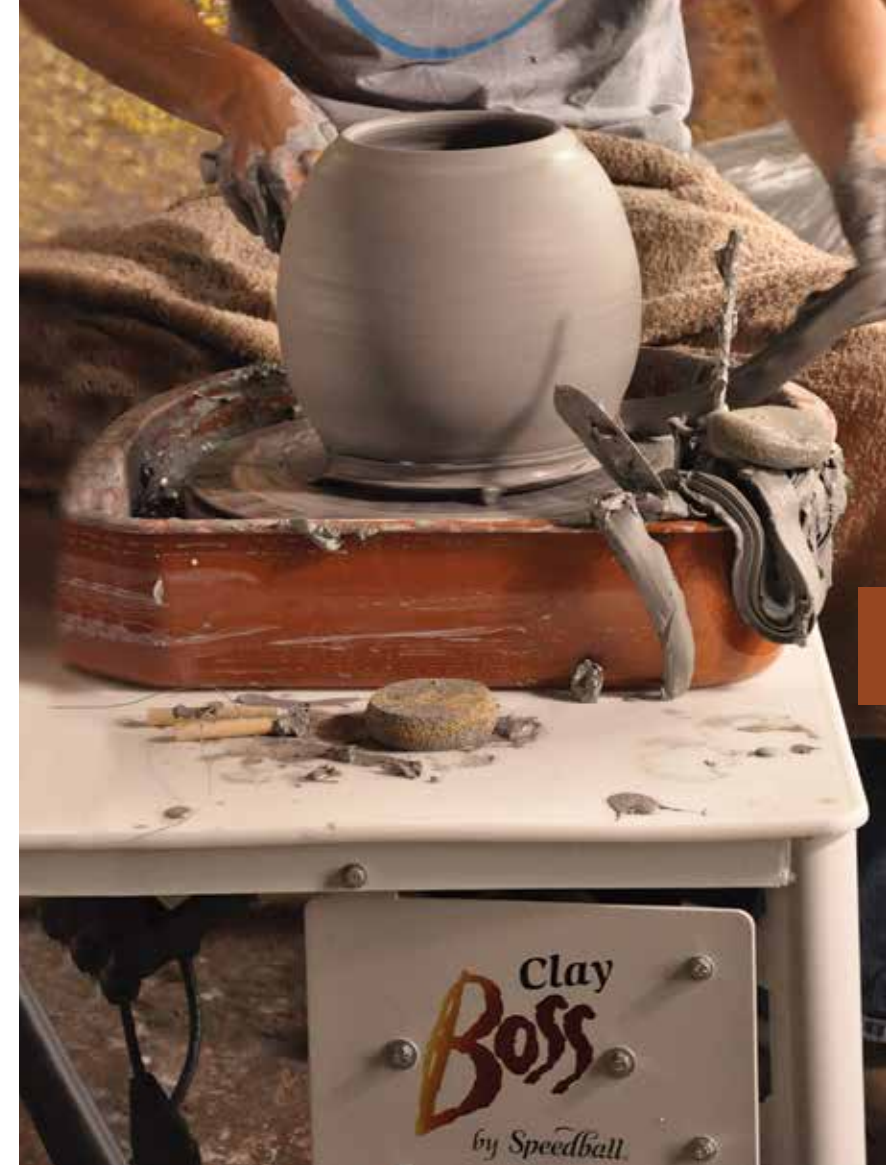

Ideal of potters working with large form, Big Boss features a 1.0 peak HP rated industrial motor that runs quietly as it handles up to 175lbs (34 kg) of clay. Its 14in (35.6cm) wheel head with variable speed control (0-240 rpm) remains smooth and constant under varying loads, and the reversing plug allows for quick changes to wheel head direction.

For ease of use, Big Boss Elite contains adjustable glide feet to allow for changes in wheel height or leveling on uneven floors. A foot pedal and a two-part splash pan gives this wheel everything it needs to take an artist's ceramic projects to the next level. Each Big Boss includes (1) each FREE 7.5in Brown (19cm) and 12in Brown (30.4cm) Plastic Bat and carries a 10-year warranty.

MEET THE ARTIST

Ryan Durbin

"I really love the size, snug fit, and subtle flexibility of these bats. They fit nicely on a ware board when I'm throwing a batch of 15-20 bowls, spoon rests, or mugs and can't easily lift them off the wheel while the clay is freshly thrown."

MEDEX® BATS

Offer the greatest durability of all wooden bats with very limited warping or chipping. This bat is an ideal alternative for potters who prefer to work on wooden bats, but who enjoy the longevity offered by plastic bat alternatives.

#MDX12	12 IN 30.4 CM
#MDX14	14 IN 35.5 CM
#MDX16	16 IN 40.6 CM

MASONITE® BAT

Offer the most affordable alternative to other types of bats while still allowing artists to easily remove projects from the wheel head and after drying.

#MAS12	12 IN 30.4 CM
#MAS14	14 IN 35.5 CM
#MAS15	15 IN 38.1 CM

BAT PINS

Attach easily to wheel head. Holds bats firmly in place while throwing. *Imperial construction; Metric sizes not available.*
